

A-VPFB 210 matt

matt 210g/m²

Matte coated paper for high-resolution color CADplotters, coated on one side with a permanent adhesive. Specialglue is used for optimal application on flat, clean surfaces. The back is protected by silicone paper.

Advantages:

Smooth surface	✓
Excellent edge definition	✓
High color density	✓
High level of ink	✓
Instant drying	✓
Water-repellent and scratch-resistant	✓

Applications:

- Short-term events: Ideal for indoor use, e.g., promotions at concerts, theaters, cinemas, or shopping centers.
- CADPhotorealistic Rendering: CADpresentations, such as prints for car design, or posters for interior applications (rendering).

Compatible inks:

- Water-based pigment inks: inks in which the colorant (pigment) is not dissolved but suspended in water.
- Latex: IR reactive ink

Property:

- Permanent Adhesive: The adhesive is specially developed for long-term outdoor applications, as it provides adhesion to outdoor surfaces for most materials, but residue-free removal from the substrate cannot be guaranteed due to the permanent nature of the adhesive.

Physical properties:

Weight	210 g/m ²	ISO 534
Degree of whiteness	145	CIE
Color	L* 94 a* 3.5 b* -13.5	CIE
Opacity	> 96%	ISO 2471

Conditions:

- Store the product in its original packaging (cardboard box and PEbag).

Compatible printer table:

Check the footer legend for the print quality column.
